

★ ICEbelt Instructions & General Information

The information contained in your ★ ICE (In Case of Emergency) belt can instantly provide the emergency services with your child's essential details.

Instructions:

1. Insert a recent / good likeness passport portrait photograph of the child into the 'Photograph' pocket of the ★ ICEbelt.
2. Remove the printed Child's ★ ICE details card' from its pocket, and with a black ball point / fine felt tip pen write clearly in English & in block capitals - over the faded headings as applicable - as follows:
 - a. **Name:** The child's full name. Please do not use nicknames or shortened versions of the name.
 - b. **Child's DOB:** The child's date of birth (day/month/year).
 - c. **Postcode:** The postal code of the address where the child lives.
 - d. **Medical Info:** If necessary, you may include up to 5 pieces of relevant medical information of the child that may be immediately helpful to the paramedics / hospital, i.e. medical conditions, medical history, medication, allergies etc.
 - e. **★ ICE Contact 1:** The name, their relationship to the child, & the most accessible telephone number of the first person that should be contacted in the event that the vehicle containing the child is involved in an accident and the adults within are unable to communicate with the emergency services.
 - f. **★ ICE Contact 2:** As ★ ICE Contact 1, but with a different contact person's details.
3. Insert the completed ★ ICEbelt details card into the appropriate ★ ICEbelt pocket.
4. Ensure the ★ ICE details & photograph are accurate, current, and that the details are relevant to the child secured in the seatbelt. Then, wrap the ★ ICEbelt around the front of the child's car seatbelt (not the harness - as shown on the safety page of the website) with the penguin motif & the ★ ICE letters facing to the front, and firmly press the Velcro fastenings together.
5. The ★ ICEbelt should accompany the child on every car journey. **The ★ ICEbelt is not a toy** & should strictly be used for its intended purpose
6. Please remember to affix your sticker to the rear car window to act as an alert to 1st responders that your child is wearing an ★ ICEbelt

Please note, in order to optimise the effectiveness of your ★ ICEbelt, carefully read the Safety Page of our website to ensure the ★ ICEbelt is attached in the recommended position - which is to the seat belt of the car, rather than the child's car-seat harness. If in doubt contact the car seat manufacturer. Furthermore, always ensure:

1. A current & good likeness portrait passport photograph of the child is inserted in the ★ ICEbelt & that it is regularly updated
2. The ★ ICE Id card details are completed in English, using a black ball point / fine felt tip pen, with all writing being in neat & tidy block capital letters.
3. The child's relevant medical details / ICE contacts are immediately updated should their circumstances change.
4. The ★ ICEbelt is attached to the seatbelt by a Velcro fastening, it is not tamperproof, and it is the driver's responsibility to ensure: it is securely attached to the seat belt of the car (not to the child seat harness) & that it remains in situ throughout the journey, the details are correct & up to date, and that the ★ ICEbelt & the child to which the details refer are at all times corresponding.
5. The ★ ICEbelt should only be attached to the car seatbelt if the seatbelt is securing the child. No child = No ★ ICEbelt

Washing: The ★ ICEbelt may be cleaned with a wipe. Remove the child's photograph & ★ ICE details prior to cleaning.

Warranty: The Seller hereby disclaims all warranties, both express & implied of merchantability & fitness for a particular purpose. The Seller's liability (at their discretion) shall be limited in any event to either replacement of the product, or refund of the purchase price.

Disclaimer: Neither ★ ICEbelt UK, nor its owners, employees, distributors, suppliers, or anyone associated with it, shall be liable for any direct, indirect, punitive, incidental, special consequential damages, to property or life, whatsoever arising out of or connected with the use or misuse, or the reliance of its products.

Important: The ★ ICEbelt is **not a toy**, it is purely an aid to the emergency services. The recommended positioning of the ★ ICEbelt is that it is fitted to the seat belt of the car, & not to the child's car-seat harness. No liability is accepted in relation to the use of, or reliance upon an ★ ICEbelt.
